

# THE MASTERS 2021

## AUGUSTA ANALYSIS

### Six-Year Scoring Ratings At The Masters (2015-20)

#### Augusta National (April 8<sup>th</sup>-11<sup>th</sup>)

Ratings are calculated by comparing a player's average round score in an event, against the tournament average for that week.

**For example:** If a player's scoring average for an event is 71.5 (286), when that week's tournament average is 72.89, then this player will have a rating of +1.39. A golfer whose rating is a minus number (such as – 1.56), will have scored 1.56 strokes higher than the tournament average for that week.

Thus, a golfer whose average is 72 (288), when that week's overall tournament average is 73.88, will have a better weekly rating than someone who fires 285 (71.25) in a tournament where the average round score is 71.86.

The final rating is worked out by calculating the average of a player's total collection of ratings – provided they have completed a **minimum of eight rounds at Augusta National from 2015-20.**

**This Rating is based on the Strokes Gained format.**

Only those invited to contest this year's Masters have been included in the table below.
